PROFILE

Ever since I can remember, I have always been a creative person. Keen on making my abstract ideas a reality. I am a Graphic Designer adept in multiple stages of graphic design. I am accustomed to working well with others and committed to meeting deadlines and adhering to project guidelines.

EXPERIENCE

Frontend Developer, Freelancer

Chennai, India

Mar 2023 - May 2023

During the course of the IB program, I was required to find a client, and make a website for them. The company I chose was a dental clinic that I was going to at the time. I conducted multiple interviews to get the requirements of the website, and gave multiple prototypes of the website to the client.

Video Creator, Freelancer

Chennai, India

May 2022 - Jul 2022

During my summer break between 11th and 12th grade, I created an intro video for the non-profit-organization, TeachToLearn. I made a video for the company's YouTube channel that captured the essence of the work they were trying to do. I used Adobe Premier Pro for the most part of making the video and used Adobe Photoshop for the graphics. I incorporated client feedback multiple times to allow maximum client satisfaction

Graphic Designer, Freelancer

Chennai, India

May 2022 - Jul 2022

During my summer break between 11th and 12th grade, I designed the cover for a textbook that would be used as study material in a couple of IIT's (Indian Institute of Technology). I worked with alongside a professional graphics design and worked seamlessly with them.

Video Editor/Marketing, Self-Employed

Chennai, India

Jan 2022 - Mar 2022

In early 2022 I had started a podcast with a couple of my classmates to promote mental health (UnsuccessfullySuccessful). This was done as community service as part of the IB CAS program. For the podcast due to my camera-shy nature, I opted to do the behind the scenes work. I created and edited all the templates and videos for the podcast. I designed the logo and created a website to promote the podcast.
